
DIRECT INSURANCE CLAIM PROCESSING

TO OUR PATIENTS:

We now have the capability of processing your insurance claims electronically, saving you the time and effort required for mailing. Our office is now connected to a network directly linked to several insurance companies.

If your insurance company is one of those on the network, we will be able to submit your claim or pre-determination directly. This should result in a faster payment from the insurance company. Most insurance companies are part of this program. However, at the time of processing, we will confirm whether your insurance company is an Electronic Data Interchange (EDI) participant.

In order to provide you with maximum benefits from this service, we require the following information:
